Coal Hollow Review Team,

Please scroll through this site for information pertaining to the 1987 Utah International Inc Alton Coal application.

M:\FILES\COAL\PERMITS\025\C0250003

The information may be helpful in contributing to our understanding of the geology, surface and groundwater, as well as soils and overburden handling aspects of the current plan. Where appropriate this information can be cited in your technical review. This information is NOT yet publically available through our <https://fs.ogm.utah.gov/COALFILES.html> site.

Technical Review of the current application Task 2910 is due June 9.
